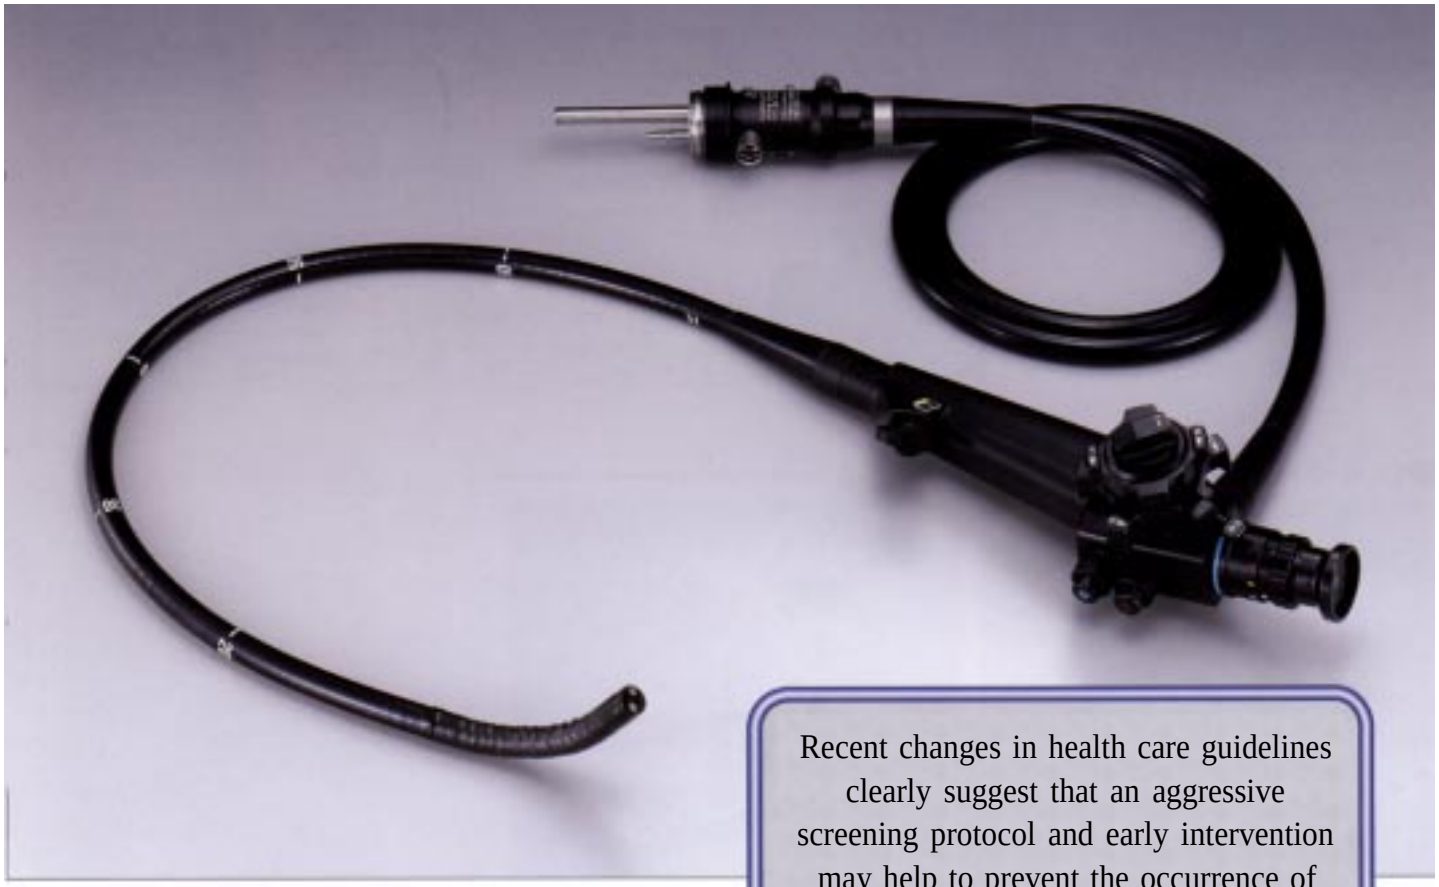
OLYMPUS®

SIGMOIDOFIBERSCOPE
OLYMPUS OSF-3

Olympus is about life. About photographic innovations that capture precious moments of life. About advanced medical technology that saves lives. About information- and industry-related products that make possible a better living. About adding to the richness and quality of life for everyone. Olympus. Quality products with a FOCUS ON LIFE

NEW PRODUCT



Recent changes in health care guidelines clearly suggest that an aggressive screening protocol and early intervention may help to prevent the occurrence of colorectal cancer.

While easy to operate, the OSF-3 provides exceptional performance and durability to withstand the rigors of repeat usage and reprocessing. Completely immersible for efficient cleaning and disinfection, the OSF-3 is a full feature, cost effective instrument that is designed to meet the needs of today's physician.

The overall versatility of the OSF-3 flexible Sigmoidoscope makes it the ideal choice for colorectal cancer screening and therapeutic intervention in an office or out-patient setting.

SIGMOIDOFIBERSCOPE

OLYMPUS OSF-3

An ideal fiberoptic sigmoidoscope & ancillary products for in-office/out-patient use.

■OSF-3

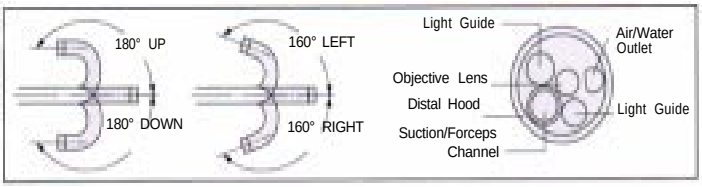
Features

- Slimmer distal end (12mm) helps ease insertability.
- Full 700mm working length for complete insertability.
- Generous 3.2mm instrument channel facilitates the use of a wide range of endo-therapy accessories.
- Approximately 40% increase in resolution for clear imaging.
- Complete immersibility for effective reprocessing. (meets ASGE/SGNA/ASTM reprocessing guidelines)
- Olympus Quality, Performance and Specifications, attractively priced for primary care use.
- CO_2 compatible with optional adapter.

MAJ-422 GAS ADAPTER

Specifications

Optical System	Field of view Direction of view Depth of field	120° 0° (Forward viewing) 3-100mm
Distal End	Outer diameter	12mm
Insertion Tube	Outer diameter	12.2mm
Bending Section	Range of distal end bending	Up 180°, Down 180° Right and Left, 160°
Instrument Channel	Inner diameter	3.2mm
Working Length		700mm
Total Length		1040mm
Biopsy Forceps	Minimum visible distance	3mm



■CLK-4

HALOGEN LIGHT SOURCE CLK-4

150-watt halogen lamp gives bright, color-balanced illumination. Includes air pump for insufflation and water feed.

Dimensions :
151mm (H) x 186mm (W) x 270mm (D)

■SSU-2

ENDOSCOPIC SUCTION PUMP
SSU-2

Compact, lightweight, yet powerful with overflow protection. Designed specifically for office sigmoidoscopy.

Dimensions :
220mm (H) x 475mm (W) x 225mm (D)
